

Hiwi/research assistant (m/f/div)

The Department of Cellular Neurology at the Hertie Institute for Clinical Brain Research is looking for a student assistant (m/f/div) on a part-time basis. The contract will be limited to **60 hours** distributed over the several months.

Want to support a conference that is related to cutting edge stem cell research?

Within the department, we are looking for support with the following activities:

- Setting up and maintaining a homepage for a three-day conference
- Editing of a newsletter
- Supporting the organisation of the conference

Your profile:

- Enrolled student (Bachelor/Master)
- Experience with content management systems, especially WordPress, and basic knowledge of HTML
- Excellent command of written and spoken English
- High level of creativity and organizational skills

We are offering the flexibility to work from home on the required tasks.

Please submit a short application (cover letter, CV, certificates) to Dr. Kronenberg-Versteeg (deborah.kronenberg-versteeg@uni-tuebingen.de) latest by 12th of November 2021, the position is available immediately.
